Whatcom County General Election Turnout and Ballots Mailed to Homes 1983 – 2023

The Whatcom County Home Rule Charter creating the office of Whatcom County executive and a seven-member County Council was approved by voters at the 1978 general election. A special primary to elect the executive and four council races was held on February 6, 1979, and a special general election was held on March 25, 1979. The three county commissioners were appointed to the three other council positions. The first general election ballot in which the Whatcom County executive and mayor of Bellingham appeared together was 1983.

Starting in 1915, Washington state voters were allowed to vote at home if they were unable to be present at a polling site on Election Day. In 1974, the Washington Legislature voted to allow voters to request a ballot be sent to their home for the next election without stating a particular need. Beginning in 1985, registered voters over the age of 65 and those with disabilities were eligible to receive all future ballots at their home. Starting in 1993, registered voters could request all future ballots be sent to their homes. By 2002, five rural counties were mailing all ballots to voters' homes. Whatcom County began mailing ballots to all voters in 2005. All of Washington's 39 counties are now mailing ballots to registered voters.
